

# 計画平面図 S=1:500

## 水路工 断面図 S=free

掘削  $V = 2.0 \times 1.0 \times 25.0 = 50 \text{ m}^3$   
 巨石張工  $L = 25.0 \text{ m} \quad (A = 2.5 \text{ m}^2/\text{m} \times 25.0 = 62.5 \text{ m}^2)$   
 巨石  $N = 62.5 / 0.2165 = 288.68 = 288 \text{ 個}$   
 $A' = \sqrt{3} \times 0.5 \times 0.5 / 2 = 0.2165 \text{ m}^2$
